The screenshot displays the DeepSign interface. At the top left, it indicates '1 page'. The DeepSign logo and 'SWISS MADE' badge are visible. The main content area shows a signing card with the following details:

- Signing as **max.mustermann@email.com**
- QES - Swiss law (ZertES)
- A digital signature of 'Max Mustermann' in a cursive font.
- A prominent blue 'Sign now' button.

Below the signing card, a 'Requestor' section identifies 'DeepCloud AG' with a verified status and a date of 'Tue, 26 Sep 2023'. A 'Download' button is located at the bottom of this section.

Sign anywhere, send anywhere

With DeepSign you can use your eSignature to sign contracts on your computer, tablet or mobile, from anywhere.

Swiss security standards

DeepSign is a cloud-based solution from DeepCloud AG – ISO 27001-certified, with data stored in Switzerland.

Digital seal

Say goodbye to outdated stamps on your business documents. With Digital seal from DeepSign you benefit from a digital stamp that guarantees proof of the origin, integrity and authenticity of your documents.

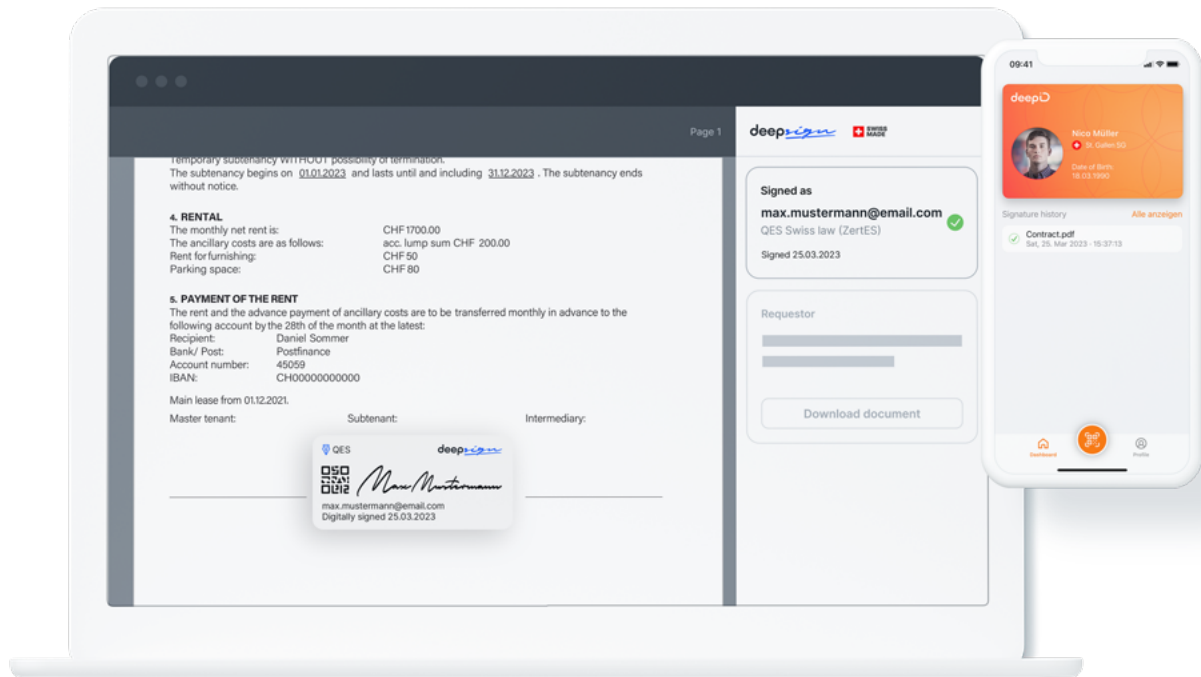

Free digital identification for all signers

To sign contracts with a qualified electronic signature, which provides the highest level of evidential value according to the Swiss (ZertES) and EU (eIDAS) laws, each co-signer must

first verify their identity. With DeepSign you and your business partners in Switzerland, the EU or the EEA can remotely identify for free using our own DeepID mobile app.

DeepID works with both passports and national IDs – and set up just takes minutes!
